PADUCAH, KY., MONDAY EVENING, JULY 26, 1909

TEN CENTS PER WEEK

Four New Sub-Stations Proposed for Paducah by Postmaster Fisher, Who Will Urge Improvements

Among Them Will be an All Night Station Somewhere Downtown.

One in Mechanicsburg is Proving Great Success and Benefit.

An effort will be made by Postmaster Frank M. Fisher to have the post-office department at Washington establish four new sub-stations in Paducah. Mr. Fisher left at 11:20 o'clock this morning for Washington, where he will remain about ten days.

His visit will be strictly on business and there are several matters he will investigate, including the improvements to be made at the local custom house.

The increasing business at the postoffice will necessitate sub-stations and this morning Mr. Fisher said he would ask the department to establish them, inasmuch as the sub-station in Mechanicsburg, which was established some time ago, has proven such a success. It is the postmaster's plan to have a station in Worten's addition, one in some locality in the west end, one on the north side of the city and a night station to be located at some downtown store. At the stations will be sold money orders, stamps and registered letters, making it a great convenience to the general public as well as the citizens. The present business demands four new stations and no doubt Mr. Fisher's request for them will be granted. He hopes to have them located in a very short time.

In speaking of a night station Mr. Fisher said it was his idea to have some drug store in the business section provide quarters for the business. It will be handy for the traveling public as well as the citizens. The postoffice closes at 6 o'clock in the evening and after that time stamps, money orders, etc., could be purchased without any inconvenience. The present sub-station in Mechanicsburg is doing a big business and has been a help to the residents of that section. As Paducah is spreading out over a large territory the necessity of other sub-stations can be seen at once.

The plans for the postoffice improvements have been drawn and the postoffice department has opened bids. The contract has not been let and while at the capitol Postmaster Fisher will inquire into the matter. He has other business matters to transact and is looking for a very busy ten days' trip.

Mr. Mark McGee in the City.
Mr. Mark McGee, who was advertising writer and window trimmer for B. Wollie & Son, until a few weeks ago, has returned from Mangrum, Okla., where he went prospecting and is in the city en route to Marietta, Wis., where he has accepted a position with Lauerman Brothers & company, a large clothing firm. Mr. McGee will hold a similar position with the northern firm.

The End of a Hero.
New York, July 26.—Lawrence Haloran who was given gold medal for saving the lives of the burning General Bloem, fell from a Jamaica bay trolley near Moore creek yesterday and was drowned in two feet of water.

The Thaw Trial.
White Plains, N. Y., July 26.—When court was called Jerome showed he was in charge of the case for the state. Morschauer is said to be unable to get the records of the murder trial. Jerome said they are interlined with his own notes and he would not surrender them, but he could get a copy made. Morschauer then called Dr. Ernest Schmidt, of White Plains, as the first witness. Thaw and Jerome sat together and talked of Schmidt's testimony, laughing.

PROPERTY OF DR. DODD IS IDENTIFIED BY JANITOR.
Several articles, including silverware, alleged to have been stolen by Tom Carmody from the residence of the Rev. M. E. Dodd, on North Fifth street, were returned to the owner this afternoon. Alex Greery, janitor at the First Baptist church, of which Dr. Dodd is pastor, and the colored cook, identified the property. The property consists of several cups and a clock, a man's coat and a woman's coat.

THE WEATHER.

Local showers tonight and Tuesday. Not much change in temperature. Highest temperature yesterday, 86; lowest today, 72.

A BRAVE SOLDIER AND GOOD CITIZEN CALLED TO REWARD

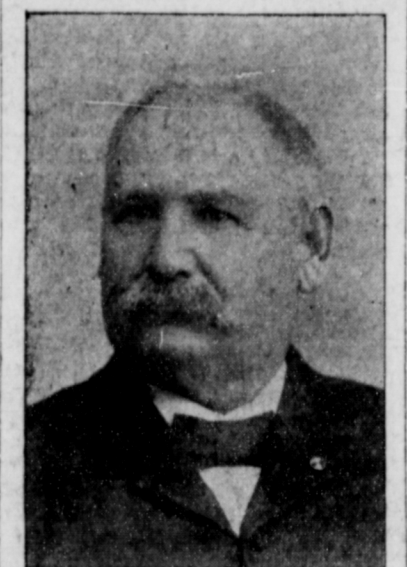

Captain John E. Williamson Mustered Into Great Army of Dead Today.

Was One of a Long Line of Fighting Men.

WAS PROMINENT IN POLITICS.

Capt. John Elliott Williamson, brave soldier and one of Paducah's most honorable and respected citizens, died at his family residence, 501 North Sixth street, this morning at 9:05 o'clock. His children were at his bedside when he breathed his last.

Captain Williamson was compelled to retire to his bed three weeks ago Friday, suffering from a slight attack of malaria. Owing to his advanced age, he became exhausted and died

Captain John Elliott Williamson

of prostration. He was conscious until 2 o'clock this morning, when he fell into a deep sleep, passing away several hours later.

He was 79 years old and was born February 27, 1830. He was prosperous in his business and highly respected. He was a kind man and in heart a Christian, although he was not affiliated with any church denomination. He lived an honest and upright life and leaves six children, who were devoted to him.

Captain Williamson was one of the three surviving charter members of the Ingleside lodge of Odd Fellows.

Mrs. Williamson died four years ago on August 12 at the family home. She left a heartbroken husband and family.

Captain Williamson was engaged in the stone and marble works business in which he had been most of his life. When he came here from his old home near Louisville he bought the interest of Mr. Young in the firm of Young & Emery. Mr. Williamson was later associated with T. B. Leonard in the same business.

Prominent Lodge Man.
He was a member of the Loyal Legion lodge and also the Odd Fellows. He was chairman of the Widows' and Orphans' fund of that lodge and last year voluntarily resigned from his position, which he had held since 1871. He was connected with Messrs. George W. Robertson and T. J. Atkins, of that committee.

Captain Williamson was one of the three surviving charter members of the Ingleside lodge of Odd Fellows.

His Family.
Captain Williamson was the only living member of his family. He is survived by six children: John Williamson, Jr., Dr. Harry Williamson, Charlie Williamson, Fred Williamson and Mrs. James Baldwin and Mrs. Kittle Willis, all of whom reside in Paducah and who are well known. Messrs. John and Fred were associated in the stone business with their father, while Mr. Charlie Williamson is connected with the postoffice. Dr. Harry Williamson was formerly city physician.

He leaves many other relatives. Among them are the following nieces: Miss Marian Williamson, of Paducah; Mrs. Laura Mitchell, of Paducah; Mrs. Mattie Tucker, of Louisville; Mrs. T. J. Daniel, of Sturgis; and Mrs. John Brown, of Jeffersonville, Ind. John Williamson, of this city, is a nephew. He leaves other relatives in Colorado and other sections and a host of friends.

In Public Affairs.
Captain Williamson was a member of the general council for 14 years. He was chairman of the sewer committee of the council and was instrumental in planning the present Oak

Apparent Deadlock in Conference

President Taft and Chairman Payne Firm For Free Hides—Westerners Want Tariff.

Washington, July 26. (Special.)—The conferees struck out the anti-tobacco coupon amendment from the tariff bill.

Washington, July 26.—President Taft is standing firmly for free hides, thus preventing a compromise. Chairman Payne refuses to sign the report of the conference committee unless hides are free. Western senators firmly for 15 per cent duty when the conferees went into session this afternoon with a motion pending to put hides at 7 1/2 per cent. The deadlock seemed unbreakable.

Italian Boat at Frisco.
Washington, July 26.—The Italian government designated the gunboat Calabria to visit San Francisco in celebration of the 140th anniversary of San Francisco bay.

Wrights Will Demonstrate.
Washington, July 26.—Wright brothers this morning notified General Allen, of the signal corps, they will make their first official test of the aeroplane at 6 o'clock this evening. Lieutenant Lahm will accompany Orville on a flight at the parade grounds of Fort Myer at the test hour.

Tobacco Market.
Association sales today, 50 hogheads. Prices: Legs 1 1/2 cents to 5 1/2 cents. Leaf at 7 cents to 9 cents. Sales will not be as large this week as there is not as much tobacco on hand as there was last week.

Cowboy Carries an Invitation.
San Antonio, July 26.—A cowboy will start to ride to Washington to invite President Taft to Texas. E. S. O'Reilly bears the invitation with the signatures of Governor Campbell, Mayor Calhoun and citizens. O'Reilly was a scout in the Spanish war in the Philippines and the first American to cross the Mexican border at the outbreak a year ago.

SOCIETY LEADER HELD AND ROBBED OF HER JEWELRY

San Antonio, July 26.—Early this morning while she was asleep, Mrs. Victor Doebbler, a society leader, was choked and gagged and bound with a rope and robbed of cash and jewelry valued at \$1,000. She says she awoke and saw two men in their shirt sleeves in the room and when she screamed they grabbed her by the throat and poured something down her throat. They took five diamond rings from her fingers. Her 5-year-old son watched her from an adjoining room.

Twenty-Five Trustees to be Elected in August
Twenty-one of 35 county division school trustees will be elected August 7. The term of office is two years and every year one-half of the board is elected. The county is divided into six school divisions, and each division has a board of school trustees, each trustee representing one sub-division or one school. The chairman of each division constitute the members of the county school board. W. F. Sexton, of division No. 6, and P. S. Straub, of division No. 2, are the only chairmen whose terms of office will expire.

The list of trustees whose offices will expire are: Division No. 1—E. J. Hovecamp, 1; C. C. Dyson, 3; I. H. Miller, 5. Division No. 2—A. S. Thompson, 2; P. S. Straub, chairman, 4; Charles Weninger, 5, and J. T. Nicholas, 8. Division No. 3—J. W. Rider, 1; L. B. Holt, 3; R. S. Wilson, 5; J. H. Childress, 7. Division No. 4—G. J. Murphy, 4; M. W. Williams, 1. The list of trustees who hold office until 1910 is: Division No. 1—E. Jarboe, 2; James Dreffin, 4; P. A. Bagwell, chairman, 6. Division No. 2—J. E. Bales, 1; A. T. Wood, 3; George Fisher, 6; H. Foster, 7. Division No. 3—William Purdon, 2; F. F. Gholson, chairman,

Smedley's Wife Denies Passing Drug Into Jail

County Physician Young today washed his hands of the Smedley case, and says he will not continue the farce of trying to treat the man, while his wife is permitted to see him. No more treatment for the drug habit will be given the former county court clerk, since Dr. Young has discovered that his instructions to keep Mrs. Smedley away from the patient have been ignored.

Because of his conduct at Riverside hospital, former County Clerk Hiram Smedley is again a prisoner at the county jail. While in the hospital for treatment for the drug habit he became unruly, and the Gimax was reached Saturday afternoon when he smashed out the windows. During the week he broke many dishes. When he was given his food he would eat and then smash the china on the floor of his ward.

The act of Smedley in breaking the windows incensed the county officials and he was returned to his cell. Under treatment his dose of morphine was reduced materially, and some of the county officials stated they believed Smedley knew what he was doing. He has been angry because the physicians refused to allow anyone to see him.

Soon after Smedley's arrival at the county jail, Mrs. Smedley arrived at his cell. A trusty said she slipped a box into the cell and it was reported to the jail officials who

DROWNED IN OHIO RIVER YESTERDAY NEAR BIRDSVILLE

Smithland, Ky., July 26. (Special.)—Frank Robertson, the 13-year-old son of a prominent Livingston county farmer, residing a few miles above Smithland, was drowned in the Ohio river while swimming at Birdsville Sunday. His body has not been recovered.

STEAM FITTERS MAY STRIKE UNLESS DEMANDS ARE MET

Chicago, July 26.—Unless packers agree to the demands of the striking steam fitters in conference this afternoon, several hundred butchers and other union men are to strike in sympathy. Strikebreakers will be imported to work tomorrow. If this happens trouble is feared.

MOB ATTACKS UMPIRE AND CHASES HIM FROM FIELD
Jackson, Mich., July 26.—A mob chased Umpire Eldridge of the Southern Michigan League from the grounds here today. In the rush of spectators the grand stand collapsed, injuring fifteen, three seriously.

Engineer Crushed.
Grand Rapids, Mich., July 26.—A frightful death overtook Engineer Michael Power here on the Marquette railroad this morning. His engine turned turtle near Ottawa Beach and he was crushed in his cab. Fireman Joseph Wise leaped and was slightly injured.

FORMER MISTRESS OF THE WHITE HOUSE DIES.
Winchester, Va., July 26.—Mrs. Elizabeth Taylor Dandridge, daughter of President Zachary Taylor and former mistress of the white house, died Sunday evening, aged 85.

Snowstorm Stops Balloon
St. Louis, July 26.—A July snowstorm forcing a descent from the clouds, Captain John Berry and companions in the balloon, University City landed this morning, seven miles from Savannah, Ill., and 240 miles from here. They tried for the Lehm cup, but did not equal Captain Chandler's flight of 473 miles. With Berry were Paul McCulloch and J. S. Thurman. They were in the air twelve and a half hours.

BULL KILLS A MAN AND THRES TO KILL CORONER
Champaign, Ill., July 26.—John Selford, working on the McClelland farm, a mile from Poosland, was forced to death by a ferocious young bull today. The coroner's jury entering the pasture for investigation, was charged by the bull and barely escaped.

Steel Car Strike Ends.
Butler, Pa., July 26.—The strike at the Standard Steel Car company ended this morning. Over 2,000 returned to work with no agreement. Seven leaders were discharged.

New Kensington, Pa., July 26.
Eight mills of the American Sheet and Tin Plate company's plant are running today for the first time since the first of the month when the employees walked out because of the open shop order. Strikers are back under old conditions.

Mrs. Taft's Father Dying.
Cincinnati, July 26.—John W. Herron, Sr., father-in-law of President Taft, had a stroke of paralysis Saturday, and is in a precarious condition at the home of Charles Anderson, Jr., of Walnut Hills.

Two Suspects Caught.
Two suspects picked up by Patrolmen at 4 o'clock this morning were given hours to get out of the city by Police Judge D. A. Cross this morning. They were John Kolita, white, and Will Saxton, colored. Kolita told Judge Cross he blew into Paducah a few days ago. He said his home was in Baltimore and he formerly traveled with Buffalo Bill's show. Saxton is from Wingo and came here by the freight route last night. He promised to return the same way.

Both were picked up by Sergeant Cross and Patrolmen Clark and Bryon while sleeping in a caboose in the south yards of the Illinois Central Railroad company.

FAT ELK'S RETORT.
"Beware of him who first cries thief." You hatchet-faced, gimlet-lagged, emaciated lean Elks, it ill becomes you to accuse the Fats of trying to bribe the umpires. In consequence to play your scrawny bunch of skeletonized humans, we did it in the interest of charity. Next Friday when the umpires cry, "Play ball," we'll show you that all the umpires could not make you win the game. It is a satire on the game to attempt to play you at all, for there is not one among your half-starved, homogenous foundlings that has strength enough to throw a ball to second base unless you would shoot the ball out of a cannon. You have made overtures to our pitcher to throw the game for a consideration. As to your insinuations that we will run the bases in an automobile, we hurl the insult back in your false teeth. There is not a dashund among you that has wind enough to make a home run, without stopping on the bases to rest. You lean bunch of protoplasm had as well make up your minds to play ball, for any crooked work on your part, you will be publicly spanked. Now padlock your mouths and go to practicing, for we give you notice that we are going to beat you.

CHICAGO RESORTS ARE INDICTED IN GRAFT CRUSADES
Chicago, July 26.—At noon 13 new indictments were reported in connection with the alleged vice protection, all against resort keepers. The report confirmed the belief that the investigation would spread to the southside "levee district."

The Evening Sun's Daily Markets.

Clarksville Tobacco Market.

Clarksville, Tenn., July 26.—Our receipts in the open market this week were 584 hogsheads; sales 293 hogsheads, upon an active, rather high market. Planters have the wisdom of shipping their sleeping crops from the scattered country storage warehouses to this strong, active market, where all of the large foreign demands are concentrated, getting quick sales at top prices, and saving the cost of long holding, which were cruel last year. Paducah and Mayfield would do well to ship.

With smaller stocks to handle, the salesmen of the Planters' association sold this week 510 hogsheads at schedule prices, and above. There is no let up in the demands and the Bremen market is active with full sales at fine prices.

The fields are now clean of grass and well cultivated, or ought to be, as the weather has been favorable. The horn worms are increasing, as there has been but little Paris green shot at them this year, and there is danger of a heavy glut of them next month. We do not yet change quotations, but they are stronger at the outside range of figures. We quote:

WALLERSTEINS
WIN THEIR GAME

IN HARD FOUGHT CONTEST SUN-
DAY AFTERNOON.

Welles Had Them All But Defeated
Until a Batting Rally—
Hooks Victorious.

NEWS OF THE BASEBALL WORLD.

After having practically lost the game, the Wallerstein baseball team made a ninth-inning rally yesterday afternoon and snatched the victory from the Welles by a score of 5 to 3. Both teams are the keenest of rivals and the loss of the game was felt sorely by the Welles, who were anxious to retrieve a defeat several weeks ago at the hands of the Wallersteins. A large crowd of rooters saw the game and the enthusiasm reached the height of a league contest. The feature of the game was the pitchers' battle between Council and Elliott.

The game opened with both teams playing good ball, but in the early innings the Welles scored three runs while the Wallerstein team was forced to keep quiet with one score until the eighth inning. In the eighth inning the Wallersteins held a council of war, and voted to slap the horse hide to the far end of the lot. This plan worked for two runs, which tied the score, but Council slapped down the top on the run-getting, and when the ninth round opened the score was a tie. Both teams were fighting desperately. For the Wallersteins Harry Mercer was first at bat and opened up with a neat single. He stole second and was sacrificed to third sack by Elliott. Dixon hit to left field, but Burton fielded fast and no scores resulted. Bob Mercer was passed, filling the bags. Runyan came to bat and with his warstick slapped the horsehide for two sacks, and two runners crossed the pan, winning the game for Wallersteins.

Bases were stolen at will yesterday as both catchers were unable to bombard second base. Besides the timely drive of Runyan the feature of the game was the catch of a line drive in left field by Burton who stabbed the ball with one hand. McGarrigal made a pretty catch in center garden for the Wallersteins.

D. M. STREET.

Hooks Victorious.

The Panhandle baseball team from Livingston county was unable to hit Hilke yesterday morning and the B. B. Hook team won an easy game, 8 to 3. There were no other features besides the twirling of Hilke who had a varied assortment of curves and shoots in stock, and the manner in which he dispensed them was bewildering. The Hooks had a batting streak and the Panhandles used Haley, Cooper and Holloway in the effort to stop the batting, but it was useless. The Livingston county lads secured only one hit and that was a fortunate one. Monroe for Hooks did the best batting as he swatted the ball on the nose several times while Carroll made a pretty stop of a hot liner on short.

The score: R H E
B. B. Hook 8 11 4
Panhandles 3 1 5

The teams lined up: Hooks—Berger, c; Hilke, p; Parady, 1b; Harper, 2b; Monroe, 3b; Carroll, ss; Dean, lf; Gallagher, cf; Helwig, rf. Panhandles—Harley, c; Haley, Cooper and Holloway, p; Barnett, 1b; Holloway, 2b; Cooper, 3b; Mayhew, ss; Ernest, lf; McGrew, cf; Driskell, rf.

Diamond Dust.

Next Sunday the B. B. Hook team will play Brookport at Brookport, and a warm game is expected.

Not a game has been lost on home diamonds by the strong Wallerstein bunch. Eleven games have been won out of 15 played.

The Indians will be the opponents of the Wallersteins next Sunday at League park. Tie Wallerstein team has defeated all of the amateur teams and will take a try at a few professionals.

New World's Record.

Monegan, Pa., July 26.—Percy Smallwood, of Wales, who recently established a new world's record for the ten miles, going the distance in 50:22, raced against three men for five miles, each of his opponents running one and two-thirds miles. Smallwood finished a half mile in the lead, his time being 24 minutes and 46 seconds, 7-2-5 seconds faster than the world's professional five mile record.

Brookport Won.

Brookport was too strong for the Red Sox team yesterday afternoon and the Paducah lads accepted the tail-end of a score—8 to 3. The game was well played throughout. The Red Sox started in like winners, but after the fourth inning the run getting for the Red Sox team stopped and Brookport forged ahead. Hanners pitched for the Red Sox and did creditable work.

Pirates Got Ransom.

An interesting game was played yesterday afternoon on the diamond in the rear of the Illinois Central shops between the Pirates and Tigers. The Pirates won by a score of 8 to 3.

Features of the game were the pitching of Shaw and the batting of the Pirates. The teams lined up: Pirates—Walters, c; Shaw, p; Quinn, 1b; W. Griffin, 2b; Kerth, 3b; G. Griffin, ss; Hotchkiss, lf; Williams, cf; Walker, rf; Tigers—Garrison, c; Endress, p; Shelton, 1b; Savage, 2b; Roark, 3b; Willet, lf; Burnett, cf; and Carter, rf.

CHANGE NOTED IN HUMAN FORM

Tailors and Shoe Dealers See Differences in Shapes of Men and Women.

The tailors and shoe dealers of London have accumulated some interesting statistics on the change in the figures of men and women. According to the tailors, there are two new types of men; that is, as regards their figures. One is the man who plays a great deal of golf or indulges largely in other forms of outdoor sport; this man is growing taller and slimmer. On the other hand, the man who has given up walking and horseback, for the motor car is becoming prosaically fat; during the last two years there has been such a waist development that makers of ready-made clothing have been forced to add an extra half-inch to the waist of trousers. For the athletic type of man the average chest measurement is 38 inches, with waist of 34, while the motoring man, though shorter, demands a 36-inch waist.

As for the ladies, it is a delicate subject, but the dealers feel that truth must prevail and they reluctantly admit that their customers' feet are much larger than they used to be. Two years ago the average was No. 4 and No. 2 was kept in stock; this latter size has now been given up and No. 8 has appeared, while the average has increased to No. 5. If this has been accomplished in two years who can guess the changes to come?—Boston Globe.

Fateful Branch of Etiquette.

Under the Third Empire in France Sainte-Beuve brought disgrace upon himself because at breakfast at the Tuilleries he carelessly opened his napkin and placed it over his two knees. To this he added the crime of cutting his egg in two at the middle. Court etiquette prescribed that the half-folded napkin should lie on the left knee and the top of the egg was to be merely broken with the edge of the spoon and drained with the cup of the spoon. For his failings in these respects Sainte-Beuve's name was stricken off the Imperial visiting list.—London Chronicle.

COUPON BOND

COUPON BOND betters by age, because it is made slowly.

You cannot hasten the process of paper making and get as good a paper as by the old slow method. You have to build a sheet of paper. Its strength and surface would tell the story of slow, careful manufacture.

Dr. Nuttall, Accused State Official,
it is Believed Has Disappeared.

Frankfort, Ky., July 26.—Chances that Dr. W. L. Nuttall, the deposed superintendent of the feeble-minded institute here, for whom a warrant has been issued charging him with detaining one of the female inmates against her will has been issued, will ever be tried on the charge are believed by the officials to be growing more slim every day that Dr. Nuttall is not taken into custody. Editor E. A. Gullion, of the Henry County Local, published at New Castle, is here today on private business. He said that he does not believe that Dr. Nuttall will ever be arrested and brought here for trial.

Little Newspaper.

Which is the smallest newspaper in the British empire? At one time the distinction belonged to the Echo of the Mountains, published in a little village high up in the Austrian Alps. This microscopic weekly was about the size of a sheet of note paper. Probably the midget of present-day British journalism is the St. Helena Guardian, which is not much larger than a sheet of foolscap. The latest issue to hand is gravely concerned with the indolence of the youths. It seems they spend most of their time in idleness or card playing. This state of things, the Guardian declares, "is certainly not a bright outlook for St. Helena." But the lonely little island may take heart of grace from the fact that it is by no means the only place where young people loaf and play cards.—London Chronicle.

She—I see in Russia there is a heavy penalty for putting a declaration of love on a postal card. He—What is the penalty? Marriage?—Yonkers Statesman.

And a man can see beauty in the homeliest woman who makes him believe that she considers him smart.

Mr. Gullion said that Dr. Nuttall had ample means and would have been embarrassed in no way in making his escape to some community where he would not be known, or his alleged crime ever heard of. Mr. Gullion said that Dr. Nuttall had much bank stock and owned property in and around New Castle. He also said:

"Dr. Nuttall told me some time ago that he intended to save every cent of his salary that he received while

superintendent here, which was \$2,900 a year." From other sources it has been learned that a few months ago Dr. Nuttall had \$2,000 in cash in one of the local banks, so that there is no question but that the money question will not bother him in going wherever he desires.

Made Bacon of Him.
It is related that Sir Nicholas Bacon, an old-time English judge, was about to pass judgment upon a man who had been guilty of robbery, at that time punishable by death; but the culprit pleaded for mercy on the ground that he was related to the judge.

"How is that?" he was asked.
"My Lord," was the reply, "your name is Bacon, mine is Hog, and hog and bacon have always been considered akin."

"That is true," answered Sir Nicholas, "but as hog is not bacon until it has hung, until you are hanged you are no relation of mine."

Doan's Kidney Pills cure kidney ills;

Prove it by your neighbor's case. Here's Paducah testimony.

The story of a permanent cure:

Mrs. R. E. Whitner, 811 Tennessee street, Paducah, Ky., says: "For years I was a sufferer from kidney complaint. My back was so lame that I was unable to get about and there were severe pains through my loins and left side. I doctored but received little relief until I began taking Doan's Kidney Pills. I believe that I would now be confined to my bed were it not for this remedy. I am very grateful for the benefit Doan's Kidney Pills have brought me." (Statement given February 18, 1907.)

On March 5, 1909, Mrs. Whitner was interviewed and said: "I gladly confirm my former endorsement of Doan's Kidney Pills as I value this remedy as highly as ever. I still use it off and on when hard work brings on an attack of backache and I never fail to get prompt relief."

RESOLUTIONS OF THE CONVENTION

ADOPTED BY REPUBLICANS OF
PADUCAH SATURDAY.

Full Ticket for City Offices Named
And Reasons Are Given for
Success.

MAYOR SMITH IS INDORSED.

Republican nominees were elected Saturday afternoon at a mass convention held at the city hall. The ticket includes a nominee for city police judge and nominees for the council, aldermen and school trustees. Col. John J. Dorian was nominated as the candidate for police judge. He responded with a short speech in which he promised to make a clean race and to conduct the office with impartiality. He said the people had trusted him before and as he had discharged his duty to the best of his ability, he was confident that he would be the people's choice again. The other nominees were: Aldermen—Harry R. Hank, George M. Oehlschlaeger, Will H. Farley and C. L. Van Meter. Messrs. Hank, Van Meter and Oehlschlaeger are in the present council. Mr. Van Meter being councilman. Councilmen—C. C. Duvall, First; Al E. Young, Second; S. J. Snook, Third; J. L. Wanner and August Budde, Fourth; Frank Mayer, Fifth, and W. L. Bower, Sixth. School Trustees—William Karnes, First; W. J. Hills and J. K. Ferguson, Second; Samuel Hubbard and H. S. Wells, Third; C. B. Kelly and E. E. Broadway, Fourth; Ed F. Morris, Fifth, and H. G. Bradley, Sixth.

The resolutions adopted follow: "We, the Republicans of Paducah, in convention assembled, indorse the national, state and city administrations in their policies of progress and enlightened justice. We congratulate the Republicans of McCracken county upon their selections of the nominees for the various county offices and commend them to the voters for their marked ability and special qualifications to fill the offices for which they were nominated.

"Especially do we point with pride to the efforts and achievements of the present city administration under Mayor James P. Smith, who after a little more than a year in office has wiped out a floating debt of \$40,013.63; put the city on a sound financial basis; increased saloon licenses from \$150 to \$500; economized in the street department, and yet made more permanent improvements, aside from those cared for by special bond issues, than any of his predecessors; taken the first steps toward the creation of a park system; improved the unsightly river front; made permanent improvement to the city light plant; has projected plans for enlarging the city hall and moving Central fire station to a better place; has instituted steps to call in outstanding municipal bonds; followed a non-partisan policy in the

personnel of his executive boards, which are founded on efficiency and loyalty; adopted the policy of extermination against disorderly dives, and reorganized the whole municipality, insofar as it lay within his power, on a business basis.

"Among the projects undertaken by the administration and approved by this convention are: A permanent bridge over Island creek into Mechanicsburg; the construction of roadways from the present foot of Broadway to the Union station; the extension of Seventeenth street, south of Broadway and the connection of Kentucky and Goebel avenues.

"We also approve its plans for sanitary improvement, and congratulate the administration on its admirable health department.

"We believe that with the legislative boards in sympathy with the administration the hands of the executive will be strengthened in carrying out those plans and reforms which he has outlined for the permanent benefit and upbuilding of Paducah.

"We believe that justice has flown from the police court of this city; that personal interest and political expediency sits enthroned, to pass judgment on the unfortunates and minor offenders in the tribunal which of all is closest to the every day life of the people. We believe the condition is a menace to the peace, prosperity and moral welfare of the community and that a change of administration is necessary to the protection of society at large.

"The public schools are too often neglected, and because the school board candidates come at the 'end of the ticket' some politicians and the creatures of those who have axes

to grind are too often allowed to fill the places on the 'tail of the ticket.' Recognizing the importance of the schools to the future welfare of the community, we recommend that the people of Paducah carefully consider our candidates for these offices and choose those who offer themselves from pure motives and have shown themselves best fitted for the administration of school affairs.

"Having unlimited confidence and pride in the future of our city and desiring that it should at all times be presented to the outside world from a favorable standpoint, we approve the move to extend the limits of our city, thereby placing it in a more favorable position to stand comparison with other cities after the next census. It is but just and proper that the suburban residents bear their part of the burden that serves to enhance the value of their property, and permits them to enjoy the benefits of our beautiful and growing city.

"We invite the co-operation and assistance of all the voters for the ticket that we name this day.

CRUSADE

WILL BE INAUGURATED BY
STATE AND CITY OFFICIALS.

That Louisville and Other Kentucky
Cities May Have Pure Milk
For the Babies.

Louisville, Ky., July 26.—By virtue of the sweeping order issued today Kentucky is to be no longer the dumping ground for the diseased dairy stock of other states. The 12,000 cows which supply milk to Louisville and the milk-supplying cows throughout the state are to be subject to the federal tuberculosis test and inoculated with tuberculin fluid.

This announcement was made today by Dr. J. N. McCormick, secretary of the state board of health; Dr. B. W. Smock, county health officer and secretary of the Jefferson county board of health, and Dr. Frank T. Elsenman, state veterinarian.

They announced that no cows intended for dairy use will hereafter be received into Kentucky which have not been subjected to official tuberculin test and declared by certificate to be free from tubercular taint. They further announced that beginning at once and by the authority of the proclamation of July 6, issued by the state board of health, the dairy cows of Kentucky will be examined by commissioned veterinarians. Those found to possess tubercular taint will be sequestered and observed; all others will be inoculated with the tuberculin vaccine from the bureau of animal industry at Washington. Dairy stock displaying symptoms of distinct tuberculosis will be destroyed.

Dr. McCormick has asked the bureau of animal industry to detail from three to five tuberculosis experts to Louisville, to assist the local and state officials in their work of interstate and intrastate inspection. It is believed this request will be complied with.

Dr. McCormick has announced the appointment of the following veterinarians, nominated by the state veterinarians, and commissioned by the state board of health, to prosecute under the supervision of State Veterinarian Sisenman the tuberculosis test throughout the state. For the Paducah district, Dr. Farley; for Shelby county and district, Dr. M. A. Purdy; for Owensboro and Daviess county and district, Dr. J. M. Hendricks; for Bowling Green and Warren county and district, Dr. J. L. Topmiller and Dr. J. A. Wallace; for Covington and for Kenton and Campbell counties and districts, Dr. W. E. A. Wyman.

The work in Louisville and Jefferson county is to be placed in direct charge of one veterinary surgeon and three or four assistants. Their names will be announced later.

Of the tuberculin fluid supplied by the United States government two cubic centimeters are used in one injection and that one dose is deemed sufficient, it need not be repeated.

The proclamation issued by the state board of health on July 6, requires every cow in Kentucky whose milk is sold, to show a negative reaction of the tuberculin test, that is to prove freedom from tubercular taint.

The state board of health is notifying the railroads and all stock men in surrounding territory that dairy cows will not be received into Kentucky unless the animals are accompanied by tuberculin certificates showing them to be free of the dread disease, and the authorities are prepared to supplement this precaution with examinations at the end of the line in all cases suspicious.

HOUSEWIVES TO BE HOPEFUL.

Some Foods Higher Priced But Most Canned Goods Are Cheap.

Let the housewife take heart, for "the people are so surfeited with cheap and wholesome foods that they fail to correctly estimate the blessing." The American Grocer further uncovers "the truth of the matter." Steam machinery and scientific preparation in factories are doing it. By these agencies "the present generation is enjoying a more extended and nutritive dietary than the world dreamed of 60 years ago." To be sure, it is admitted that "poultry, meats, butter and a few other articles are expensive," but the ultimate consumer, that ungrateful rascal, can buy seven pounds of oatmeal for 33 cents, macaroni at 10 cents a pound and bananas at from 1 to 3 cents apiece. Then there is nerve-

bracing tea! It affords 220 to 240 cups of beverage at a cost as to grade, from one-tenth to half a cent a cup." The best is yet to be told. Soups which retail at 8 to 10 cents a tin "furnish the first course of a dinner for five at 2 cents each." If his hundreds of cups of "beverage" at a tenth of a cent a cup have left him any digestive organs, the consumer may purchase a "tin of domestic sardines at 4 to 5 cents—a marvelously cheap article of food." An eight-ounce tin of sauerkraut and sausage may be obtained for 15 cents. "When the consumer comes to the line of canned foods there are scores of articles retailing from 6 to 10 cents of very good quality."—New York Post.

Jumbo.

Jumbo, the famous elephant, was killed by a train at St. Thomas, Ontario, the night of September 15, 1885. The Barnum circus had given a performance in that city and was packing up. Jumbo, accompanied by a baby elephant, was on a railroad track when a special train came along. Jumbo gave a shriek of warning and ran down the track to the "baby's" assistance, but was run down by the train. The baby elephant was thrown from the track by the pilot of the engine and escaped with a broken leg.

Daily Thought.

Do not be satisfied with lofty ideals and beautiful sentiments. Embody them in your acts.

Some people think the tariff is a skin game; and we must admit that President Taft took the hide off the Aldrich schedules.

A young Spanish nobleman, being thwarted in his love for a chorus lady, committed suicide. We cannot resist considering how much more decent was his conduct than that of Harry Thaw.

Don't forget that next Friday the Elks will play ball for the Home of the Friendless. Don't wait for somebody to come around with a ticket. Hunt one up whether you can go or not. Take two tickets.

Captain William Pearson Hobson need glory no longer in the feminine admiration aroused by his sinking of the Merrimac at the mouth of Santiago harbor. There was some psychic cause for the kisses he received, in proof of which we note that when Aeronaut Latham fell into the English channel and was rescued in a small boat, the French women almost smothered him with kisses, and he had to be rescued a second time.

Chicago is torn by doubt as to whether Police Inspector McCann, of the "levee" district, is a grafter, or is the victim of divekeepers, who wish to get him out of the way. It is of but passing moment whether McCann is or is not a grafter. The dives are responsible for the graft, not the police officers. Therefore, sound logic would dictate the removal of the dives instead of the removal of the police officers.

COL. JOHN J. DORIAN, affable, obliging, painstaking Colonel Dorian, who twice was elected city treasurer on his merits, and the second time prevented by reason of a technicality, from carrying out the wishes of the people that he remain in office, heads the Republican city ticket this fall.

Colonel Dorian possesses a chivalrous, sympathetic nature, a well balanced mind and native shrewdness, integrity and sense of justice, that fit him for the magistracy. There, perhaps, is no tribunal where legal hair splitting is less desirable, and good honest horse sense more at a premium than on the police bench. The police magistrate deals with misdemeanors and violations of plainly written ordinances. As to the trifling details of clerical work, the city employs an excellent city attorney to attend to those matters. The civil magistrates, not one of whom is a lawyer, have more need of legal learning than the police judge. The police court is no place to consider the constitutionality of law. Whenever that is undertaken the case goes to the circuit court, anyway.

Truth is, people are sick of judges interpreting plainly worded laws to mean nothing that some criminal may escape his desert, and they want an

honest man, capable of sensibly applying the law as he finds it to the facts as presented to him. If there is an intelligent man in Paducah, who thinks he cannot do that much as well as a lawyer, his modesty is his only merit.

BECKHAM ON WHALLEN.

Not since the famous "Diplomat of the Zwickbund" editorial, which resulted in the death of Senator Ed. Carmack, of Tennessee, has another Illinois so powerful as former Governor J. C. W. Beckham's arraignment of the Courier-Journal and John Whallen reached our exchange desk. On this page in the "state press" column, the editorial is published in full.

We had suspected something sinister in that state Democratic barbecue at Louisville. It looked mightily like a scheme to draw the state Democracy into the Louisville city election; an audacious scheme, since the same Louisville gang defeated the Democratic candidate for United States senator.

The Courier-Journal heretofore had stayed out of local politics, holding itself aloof and above the sordidness of Louisville's criminally conducted campaigns, and in the campaign of 1905 the Courier-Journal assiduously hunted down lawlessness and published the news. At that time we know how zealously all mention of the Buckingham theater was kept out of the Courier-Journal and Times, and John Whallen was a creature too far beneath contempt for notice.

Now, all things are changed. John Whallen is represented in the Courier-Journal as "Known and honored by nearly every Democrat in the state," which speaks well for Democracy, since it infers that the Democracy of the state is not acquainted with the character of the Buckingham theater and saloon owned and operated by Colonel Whallen.

Marse Henry Watterson is now earning his salary. He does not write as the spirit moves and conscience and experience dictate, but on themes and in such terms as the power above him dictates.

Twere time for Kentucky Democracy to be enlightened as to the situation at Louisville and the purpose of the Colonel Whallen's mission abroad; and we leave it to our readers to judge whether Editor Beckham has spoken plainly.

SOME STORIES AROUND TOWN

No doubt Paducah has one of the largest or if not the largest Elks in the state. He is James J. Wood, chief of the Paducah fire department, an was put through the "curriculum" last week. Now he is a full-fledged member and feels as big as he is.

The chief laughed when asked how he enjoyed the initiation ceremonies. Although it is against the laws for lodge members to tell "tales out of school," the chief doubtless didn't have the pleasure of riding the goat. In mentioning the greasy pole, however, it is well to say that Chief Wood could slide down all right. The question of climbing it is another thing.

The coming game between the slim and fat Elks will not be participated in by the jolly chief. Chief Wood said the other day: "You know I am not going to play baseball." He will be out to root for the fats, but getting in the game has no charms for him now.

The increasing popularity of Deal's band at Wallace park was evident in the large crowd out Sunday afternoon and night. At 8 o'clock last night Prof. Edmund Robertson, clarinetist, rendered a serenade and polonaise with variations by Missus, winning much applause. The band was frequently encircled and attracted a large number of music lovers. Professor Robertson, who is visiting his mother here, has won much notoriety at Sparta, Ill., where he is now located. He will render another solo next Sunday.

STATE PRESS.

Will Be Leading "Spirits."

The Whallen party will give a monster picnic in Louisville September 27. Such Democrats as the editor of the Courier-Journal, who betrays, bolts and knives his party whenever he feels so inclined, and Col. John Whallen, who is charged with contributing \$500 to the Taft Republican campaign fund and who rejoiced when Goebel died, will be largely in evidence.—Glasgow Times, (Dem.)

Whallen's Bacchanal.

The Republicans of Louisville are to be congratulated that Colonel Whallen has been put to the front as the representative of the reunited Democracy, and that he has decided to celebrate his accession to leadership with a two days' orgie. If the Democratic city and county ticket has not been already ruined by Whallen's personal domination of the party organization we predict that his widely heralded bacchanal will finish the job.—Lexington Leader (Ind.)

Call Them Off.

In another column the State Journal publishes a sample article from the Courier-Journal, telling in glowing and adulatory terms about the triumphal tour of Col. John H. Whallen, that apostle of orthodox Democracy in his efforts to arouse the Democrats of Kentucky to the support of the ticket in Louisville. With flaming headlines and editorial eulogy, that great journal, the undisciplined and unpublishable organ of political purity, daily recounts in most conspicuous fashion the visitations of the colonel to the various cities, and with characteristic accuracy relates the enthusiastic ovations accorded him at each place. Mr. Bryan in his palmist days never received more hearty welcomes from the Democrats of Kentucky than have been given to the patriotic colonel in the columns of that paper, edited by his most recent and devoted ally.

By the shifting of scenery and the rapid changes of the political kaleidoscope, the valiant colonel and the doughty editor are now shown to an admiring public as a picture of the Damon and Pythias of up-to-date Democracy, locked in a loving embrace, and representing the symbol of a purified and regenerated party! To the genius who brought about this confederation of two kindred, though warring spirits,—and spirits is an illustrative word,—we must admirably make our salaams and life our chapeaux. His talents deserve for him a broader field of operation. He should be immediately sent as the ambassador to the court of the Mikado, to reconcile any differences that might exist between this country and Japan, or better still, he should be selected as the president of the next Hague conference to show the gathered representatives of the nations of the world how peace may be established even between the most discordant elements and the horrible arbitrament of arms averted by a little judicious application of salve. The spirit (again that obtrusive word) of modern civilization is eagerly looking for his marvelous diplomacy to show how international disarmament may be accomplished.

His success in uniting these two warlike colonels should attract world wide attention. In the early days of the republic two of its most eminent statesmen met for moral combat under the code, duello, because one of them had spoken of the other as one of the principals in "an alliance between a Puritan and a Blackleg." No such offense could be committed in reference to this more recent alliance, because it would be hard to locate the Puritan.

If it is true, as the Courier-Journal says, that Colonel Whallen has been sent out, bearing the insignia and credentials of party leadership and stamped as the immaculate embodiment of this "reunited Democracy," then we must, on the part of the real and unfeeling Democrats of Kentucky, enter our most vigorous and vehement protest.

We earnestly desire to see the Democratic party triumph everywhere because its principals, when correctly understood and honestly enforced mean, we believe, the greatest number. We desire to see the Democracy of Louisville and Jefferson county again in control and recognize that upon its present ticket are many excellent men deserving the support of good citizens. But if they select these new allies as their

spokesmen and leaders, and try to rally the Democrats of the state to their support in such a manner, we must warn them and tell them that the Democrats of Kentucky are made of better stuff, and while they want to win, they do not want to win by any "compromise with dishonor."

So far as the editor of the Courier-Journal is concerned, the editorial eulogist of his new found ally, it is not necessary now to speak of his record, personal or political. His motley-colored political garments are familiar to the sight of the people of Kentucky. No word from us is needed to tell them whether or not they should trust or believe him. But of his recent political preceptor, Colonel Whallen, we feel it necessary to remind them that since 1896, thirteen years ago, he has persistently and regularly fought Democratic nominees, and has been the chief political asset of the Republican party in the city of Louisville. From the presidency down to constable he has buried his hatchet into every Democratic nominee for more than a decade. He has exulted in every Democratic defeat and reputed leader of Democracy in the largest city of the state to corral the Democrats of Kentucky to pay homage to him as the party's new chieftain.

We have been told, even by the Courier-Journal and its voracious editor, that he is, and has been for many years, the keeper of one of the lowest dives in Louisville, the proprietor of a theater that decent people cannot patronize and a political martinet in whom no one can have confidence.

We know that he has been indicted for attempted bribery and corruption upon the general assembly of the state in trying to buy a certain senator to vote against William Goebel, the Democratic candidate, and to vote for Taylor, the Republican candidate.

In the light of these facts and in the name of those Democrats of Kentucky who seek good government in the nation the state and local affairs, who furnish the brain and brawn of Kentucky's splendid citizenship, and who are truest and most devoted to the real principles of Democracy, we must say to the Democrats of Louisville, you should change your leadership and not try to force upon us those who have stained their hands in Democracy's blood and forfeited all claim to the name of Democrat.

We wish to see Democratic success in Louisville this fall and in what we say we do not wish to prescribe any errant or true Democrat from returning to the party and receiving a cordial welcome, but we do most emphatically object to having the Democrats of Louisville sent out to the Democrats of the state as the accredited avatars of their "regenerated Democracy" men who have fought Democratic principles and gloated over Democratic calamities.—Kentucky State Journal.

THE PUBLIC FORUM.

Lynching No Remedy, Even When the Law Fails.

They send us word from Paris that they lynched the negro who shot the sheriff because they felt that the law would do nothing with him. They said that three sheriffs have been shot; that one killer got 10 years; that another got a life sentence, and the third killed himself when about to fall into the hands of the officers.

Measuring this enforcement of the law by standards that obtain in other parts of the state, we are inclined to think that the law has done very well by the people of Paris.

But they complain in Henry county, as they complain in many other counties of Tennessee, and all over the south for that matter, that the law does not protect human life and that the law does not vindicate itself in the punishment of those who break it.

Thus a bad state of feeling is created when Mr. Bill Latura is found to be guiltless of murder because of insanity, and Mr. Barrett gets 11 months and 29 days in the workhouse for murder; when the supreme court turns night riders loose. When you reflect that one murderer in every 60 in the United States is punished, you begin to see why men who would ordinarily be law-abiding feel that the law itself is impotent.

"Criminal law," says a writer of a book on the crime problem, Col. Vincent Myron Masten, military instructor at the New York state reformatory, "that effects but one full conviction for the spilling of human blood to the 60 indictments, places a premium on all kinds of lawlessness and chicanery."

"Furthermore," says this writer, "such ratio of conviction makes inevitable the conviction that as between the murdered dead and the living murderers the scales of justice are in favor of the former somewhat in the ratio of 60 to 1."

No matter if the law has failed 99 times to secure a conviction, no mob is justified in hanging the hundredth offender.

If the same energy had been used in Henry county to bring about the conviction of this negro that was used in lynching him, there would have been a conviction.

There is only one method of saving human society, and that is through the strict enforcement of the law. The law itself, in our present degree of development, with the force of fear that it carries with it, is the only thing that keeps human beings from tearing one another to pieces.

We may think that we obey the law for the love of the law and for the love of the right. Possibly a few of us do. But the great majority

JOB WAS DONE BY AMERICANS

BELIEF OF THE SCOTLAND YARD DETECTIVES.

Very Sensational Case of Prominent Diamond Broker of Paris Losing Bag of Precious Stones.

NO CLEW HAS BEEN FOUND

London, July 26.—Scotland Yard entertains a suspicion that the gigantic jewel robbery which occurred in the Cafe Monico on July 2 was the work of expert American thieves, and that the loot is probably now in America. They have recently had clews which induced them to offer a reward, hoping that some confederate of the gang, who had been left out in the division of the spoil, might peep on his pals.

The robbery was the most sensational and successful of recent years. Frederic James Glodsmith, a prominent diamond broker of Paris, arrived in London toward the end of June bringing with him pearls and other precious stones valued at \$550,000.

On July 2 after visiting several prospective customers, carrying a bag containing the jewels, he lunched at the cafe Monica. At the conclusion of the lunch he went to the basement to wash, placing the bag on a table. Three other strangers were in the wash room.

Goldsmith had just soaped his hands when one of the strangers seized the bag and started toward the door. Goldsmith, with another of the strangers, sprang after the thief. They were preceded by the third man, who seemed anxious to assist in the capture, but who fell down, thereby sending the pursuers sprawling. By the time they regained their feet the thief had escaped; also the man who had fallen.

The bag contained ten pearl necklaces, composed of 70 pearls, three bunches of pearls numbering 700, five lockets, several sets of buttons, diamond rings, a bag of colored stones, ten five pound notes and several French notes.

Little doubt is expressed that the thieves were experts who had shadowed their victim from Paris.

An Inch of Rainfall.
An acre is 6,272,540 square inches. An inch of water on an acre is, therefore, 6,272,540 cubic inches. That amounts, at 277 cubic inches to the gallon, equals 22,000 gallons, or 230,000 pounds or 100 tons. An inch of rain is, in other words, rain falling at the rate of 100 tons to the acre.—Philadelphia Bulletin.

Think what you please—but keep most of your thoughts to yourself.

obey the law through fear of the law, and if you rob the law of the terror that it creates by its vigor in punishing crime, the era of lawlessness immediately begins.

Getting down to the last analysis the cold fact is that about 90 per cent of the men whom we elect to office to enforce the law, themselves have no conception of their duties and no idea of the obligation they are under to discharge these duties.

The average officer acts only when public opinion drives him. He keeps his ear close to the ground. If a crime of peculiar atrocity arouses the community he becomes active. But if a crime is committed and nobody says anything about it; no public comments on it; no publicity is given to it, the average officer makes no great effort to bring the offender into a court of justice.

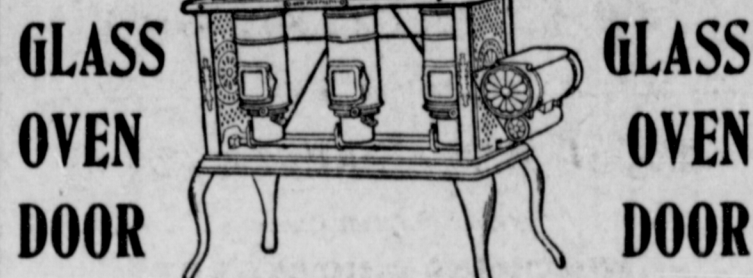

The greatest enemies the law has in many states are the men who are sworn to discharge its commands. Somehow there must be a new way of planting into minds the love of law and a fear of lawlessness. It should begin in the church and in the home where the child is learning to talk and to think. If the church and the home teaching fails, then the school must do this work. If religion can put the fear of lawlessness into men's hearts, then let's have a little more of it. If it does not, then the religious teachers are using the wrong methods.

If men are no longer to be bound by religious training, then let the schools hammer on the law of self-preservation as the greatest incentive to every pupil to lead a law-abiding life.

The bread of justice that lynching deals out is a mockery of justice itself, and it murders those who are active in this lawless practice.—Commercial Appeal.

OVER CHANNEL

LOUIS BLERIOT, FRENCH AERO-NAUT, SAILS.

Lands on English Soil and Beats His Rivals Great Honor.

Dover, England, July 26.—This sleepy town experienced a thrill when at sunrise Sunday morning, Blériot's aeroplane swept out from the haze obscuring the distant French coast and circling twice above the Dover cliffs, alighted on English soil.

Louis Blériot, the calm, portly Frenchman, descended and two compatriots, who had been waving the French flag as a signal for the landing place, fell upon and embraced and pounded him. They with a few others who chanced to be there were the only witnesses of the finish of the remarkable feat.

Blériot left Les Baraques, near Calais, about 4:30 on one of the smallest monoplanes ever used. He crossed the channel in less than half an hour's time at an average speed of more than 45 miles per hour. Sometimes it approximated sixty. He kept about 250 feet above the sea and for ten minutes was out of sight of both coasts and the French torpedo boat which followed him.

The wind was blowing 20 miles per hour. The aviator wore a single garment of drilling and a cork life belt. Blériot swooped over the cliffs turned the machine eastward and landed in a meadow, winning the prize of \$5,000 offered by the London Daily Mail, stole a march on his rivals, Latham and Count DeLambert.

Blériot said when he dived down to alight he struck the ground sooner than he expected and both the machine and himself were badly shaken. His wife arrived on the torpedo boat and embraced him, weeping. Dover officials welcomed Blériot as the pioneer of international flight. The townspeople, who for three weeks have expected the aeroplane's coming, were caught napping.

Blériot early announced that if Latham crossed he would share the prize with him, but a heavy wind and rain prevented this.

Blériot returned to Calais, but will later go to London, where a great demonstration will be held.

"Can't Walk, Will Fly."
Calais, July 26.—Despite his lame leg, injured in a former flight, Blériot beat his two rivals for the honor of sailing from France to England. Latham thought the wind too high, and Count DeLambert had gone to England to pick out a likely place to land. Blériot declared on starting, "If I can't walk I will show the world I can fly."

RODE GOAT 161 TIMES.

Rev. J. R. Bell Claims to Be World's Champion "Jiner."

The friends of Rev. J. R. N. Bell, D. D., pastor of the First Presbyterian church of Corvallis, Ore., says he has advanced further in fraternal orders than any other minister in the world. Few men of any profession equal his record.

He belongs to practically every wide-spread order in the world, except those in which insurance is the dominant feature. He has ridden the goat in secret orders 161 times.

Dr. Bell, in point of service, is the oldest Grand Chaplain in the Masonic order in the world, having been grand chaplain of the Grand Lodge of Oregon for thirty-five consecutive years.

He belongs to all branches of the Masonic fraternity, the Knights of Pythias, the Odd Fellows, the Elks, the Eagles and the Red Men. He has taken 140 degrees in Masonry, including thirty-two Scottish Rite degrees, twelve York Rite degrees

and ninety-six Egyptian degrees. He joined the Masonic fraternity in March, 1872. He is a charter member of Al Kader Temple of the Mystic Shrine at Portland. He at one time joined the Ancient Order of United Workmen at Roseburg, Ore., but does not now maintain his membership in that order.

Many offices in all these orders have been held by Dr. Bell, and he is generally called upon to officiate as Grand Chaplain when any of them celebrate an event of unusual importance.

Dr. Bell was born January 25, 1846, in Pulaski county, Va., and was educated at the Masonic College at Wytheville, Va. He is a veteran of the Confederate army, having served throughout the war as a member of Company J, Twenty-sixth Virginia Battalion, Eccles' brigade. Wharton's division, Parley's corps. He participated in thirty-two battles and many skirmishes and was slightly wounded twice.

"Were you an officer?" he was asked.

"No and therein I hold a record," laughed the minister. "I am the only ex-Confederate living who went into the war in private and came out a private. Every other living ex-Confederate I know of was a colonel or at least a major."—New York Sun.

"Don't Let
Us Alone!"

That National Prosperity Association wants everybody to quit "agitating." Its motto is "Let Us Alone." Well, that may be all right for the immense commercial concerns of the country—the manufacturers, etc.—but it is all wrong for the ordinary business house.

You don't want people to let you alone. You want them to come around and buy goods, don't you?

But they will let you alone unless you "agitate."

DAIRY CATTLE SUFFERING WITH A SEVERE EPIDEMIC

Dairy cattle in McCracken county are being watched to prevent a spread of the germ disease known locally as the "pink eye."

The disease has been in many herds through out the state of Illinois and the dairymen have been watching their cattle with care. One or two cases have been reported to Dr. Ed. P. Farley, city milk and meat inspector, and today he made a tour of the dairies. No cases were found, but he gave instruction if any cow develops the symptoms of the disease she must be isolated from the other cows. By proper methods it is believed the dairy cows of the county will be kept clear of the trouble.

COALING PLANT
COMPLETED BY
WEST KENTUCKY

The immense steamboat coaling device was completed today by the West Kentucky Coal company and will be given the first test tomorrow morning. The construction work was under the supervision of Charles Kopf, Jr., river salesman for the company.

The device was converted into a modern coaling arrangement from the old steam shovel of the company. It is the first boat coaling plant ever operated on the river here, and will be a time and money saver. The cost of the coaler amounted to about \$8,000 and has been in the course of construction for about five months.

The test will be given tomorrow morning when the coaler will be towed to the dry docks and a supply of 3,000 bushels of coal deposited on the docks. The docks will be taken to Helena, Ark., Wednesday in tow of the towboat Charles Turner and the coal will be to supply the boat. Captain H. C. Murnan, of the Helena Dry Docks company, while here contracted for a large coal for that place.

The coaler is a perfect piece of construction. An immense steam shovel lifts coal from the barge and deposits it into a hopper, which is set on a scale. The coal is weighed at the same time. From the hopper the coal is dumped into the chutes and ordinary steamboat can be coaled in a short time, sending coal into the bums or deck room. The chutes are of metal and in sections of ten feet in length. Coal can be deposited at a great distance with the extension.

This device eliminates the expense of laborers and at the same time saves over three-fourths of the time of coaling boats. The coaler was built by the company near the site of the large building plant in Mechanicsburg. It will be used extensively in the local harbor.

Dr. Crawford Gets Judgment.

Dr. C. N. Crawford was given a verdict for \$2,500 against the town of Murray. He sued for \$5,000 for breach of contract. The suit grew out of the voting of bonds for the purchase of the electric light and water plant. The bonds were voted, and the contract was made with Dr. Crawford for his property. His flour mill was located on the lot with the plant, and he went to the expense of moving it. After the bonds were voted it was impossible to place them, and the electric light and water plant was not purchased, and Dr. Crawford sued for damages due to removing his flour mill.

The special civil term of court will expire, but next Monday the regular civil term will begin, and business will still be good about the court house of Calloway county.

42 Hurt in Wreck on Big Four Train.

Indianapolis, July 26.—Forty-two persons were injured in a wreck on the Big Four of a train en route from Chicago to Cincinnati at Zionsville, 17 miles northwest of this point. Six passengers who were most seriously hurt were brought to hospitals here.

They are: D. P. Beatty, of Akron, Ohio, head cut and body bruised; H. B. Creel, of Cincinnati, legs injured; Dr. D. A. Sullivan, of Lima, Ohio, body bruised; Jacob Elzy, of Louisville, cut and bruised; Mrs. Magnolia Miles, of Knoxville, but internally. All others were able to continue to their destinations on a special train.

The baggage car and coaches following left the track while the train was running 50 miles an hour. The locomotive held to the rails. Several coaches turned over. There were two hundred passengers on the train.

Rain Covers Wide Area.

Farmers are rejoicing today over the rainfall, which was gentle and will benefit the crops greatly. The high land has been needing rain for a week, and this will do much to improve the yield of corn. Reports from McCracken and adjoining counties show that the rain is covering a wide area.

Notice.

On August 17, 1909, I shall apply to the governor for executive clemency in behalf of Robert Nicholson, now in the reform school at Greendale, Ky.

PUMPING WATER 350 MILES

The greatest difficulty experienced by the metallurgists in the West Australian gold fields arose from the scarcity of water. The mines were situated in arid districts, between 300 and 400 miles westward from the sea and coastal rivers, and the only source of supply in the mining camps were the mine waters, mineral springs, and desert salt pans. All the ground water was full of alkali and the miners were compelled to distill the alkali water to obtain supplies for drinking and domestic purposes. The scarcity, however, was remedied early in 1903. The government clearly recognized the economic value of the gold discoveries and, while the mining boom was on, boldly undertook to supply the principal mining communities with good water. The scheme was, in addition to being the greatest of its kind, unique in other respects. The estimated requirements of the fields amounted to 5,000,000 gallons per day. After numerous surveys had been made, it was determined to run a well across the Helena river, near Mundaring and pump the water thus collected in two and a half feet riveted steel conduits, a distance of 35 1/2 miles to Bulla Bulla. A concrete weir 750 feet in width and 100 feet in height was a reservoir with a storage capacity of 4,000,000,000 gallons, and a daily output capacity of 5,000,000 gallons. The main service from which the towns and mines of the gold fields are supplied is situated at Bulla Bulla, twenty-one miles eastward from Coolgardie. This reservoir has an elevation of 1,200 feet above the level of the Mundaring reservoir. The water is pumped from Mundaring to Bulla Bulla reservoir by steel pumps operating in eight sections and from as many intermediate reservoirs of storage tanks. These pumping stations handle daily over 5,000,000 gallons of water, weighing approximately 22,300 tons. From Bulla Bulla the water is distributed to numerous centers by gravity through steel conduits.

The largest locomotive in the world has been built in Chicago for the Southern Pacific railroad. It weighs 195 tons without the tender.

MORE PINKHAM CURES

Added to the Long List due
to This Famous Remedy.

Camden, N.J.—"It is with pleasure that I add my testimonial to your already long list—hoping that it may induce others to avail themselves of this valuable medicine, Lydia E. Pinkham's Vegetable Compound. I suffered from terrible headaches, pain in my back and right side, was tired and nervous, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound restored me to health and made me feel like a new person, and I shall always have my praise."

Mrs. W. P. VALENTINE, 902 Lincoln Avenue, Camden, N.J.

Gardiner, Me.—"I was a great sufferer from a female disease. The doctor said I would have to go to the hospital for an operation, but Lydia E. Pinkham's Vegetable Compound completely cured me in three months."

Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 39, Gardiner, Me.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a trifle to try it, and the result is worth millions to many suffering women.

WHIPPINGS

MAY BE INVESTIGATED BY LEGISLATURE.

Penitentiary Discipline Matter of Affidavit in Hands of Governor Willson.

Frankfort, Ky., July 26.—The bitter controversy among state prison officials and ex-officials over the whipping of prisoners and the infliction of other cruel punishment will undoubtedly be investigated by the next general assembly.

State Inspector and Examiner M. H. Thatcher has from time to time taken the depositions of former guards, employees and prisoners which will undoubtedly be transmitted to the legislature by Governor Willson in some form, although it is not announced just what program the chief executive and his trusted investigator have mapped out.

George D. Woodruff, a former guard in the Frankfort penitentiary, appointed from Woodford county and now living at 366 Jefferson street, a former member of the Lexington police force, was summoned last Thursday to appear before Mr. Thatcher to testify to what he knew about the whipping of prisoners during the five years he was employed at the prison. For a part of that time he was the official whipper of the institution, acting under the orders of his superiors in carrying out the sentences imposed upon prisoners for failure to perform their daily tasks or other offenses, and his deposition tells a harrowing story of occurrences behind the grim prison walls.

GLASS MADE BY MACHINE

Time-Honored Method of Blowing It May be Suspended.

Common, ordinary window glass is one of the few industrial products of which the method of making has practically remained stationary. From time to time attempts have been made to use mechanical apparatus for blowing the glass, but the results have been unsatisfactory and the old method has persisted.

The workman blows a cylinder of glass, which is then split open lengthwise and carried to a furnace, where it opens out under the influence of the heat. A slow process, consequently expensive, and above all injurious to the health of the blowers.

Now an American engineer has just invented a simple machine, for which, when certain difficulties are overcome, great success is hoped. The glass is made like paper, then a sheet of the paste is drawn vertically from the tub, and this a horizontal cylinder carries over an endless table then into an annealing furnace, from which comes forth an uninterrupted band of glass that can be cut off in desired lengths.

One of the greatest difficulties in this method is to prevent the glass paste from growing thinner by its own weight as it is drawn from the tub. This problem has been solved by placing in the tub two balls that rotate rapidly, from the bottom to the top, which has the effect of continually drawing masses of glass towards the top, thus counteracting the tendency to string down and contract.

With this new method a single furnace can produce twelve tons of glass every twenty-four hours and all its service requires is a watchman, a cutter and two boys to take away the panes.

But the present method of blowing it would take twenty-four men to produce the same result.—Boston Sun-Globe.

The Difference.

Sydney Rosenfeld once wrote a comedy entitled "The Optimist," which achieved success after the production, but was a long time reaching the stage. Manager after manager refused the manuscript, and one day Mr. Rosenfeld, whose patience was exhausted, blurted out to his sole auditor:

"Of course you don't appreciate the play! You don't even know the meaning of its name."

"Yes, I do," protested the impresario.

"Well," insisted Mr. Rosenfeld, "what's the difference between an optimist and a pessimist?"

The manager barely hesitated. "An optimist is an eye doctor," he said; "a pessimist is a foot doctor."

President Helps Orphans.

Hundreds of orphans have been helped by the President of The Industrial and Orphan's Home at Macon, Ga., who writes: "We have used Electric Bitters in this institution for nine years. It has proved a most excellent medicine for Stomach, Liver and Kidney troubles. We regard it as one of the best family medicines on earth." It invigorates the vital organs, purifies the blood, aids digestion, creates appetite. To strengthen and build up thin, pale, weak children or run-down people it has no equal. Best for female complaints. Only 50c at all druggists.

The duke of Norfolk has a rent roll of \$1,350,000 a year. His London estate in Norfolk street, Surrey street and Arundel street, Strand, was erected on the site of his ancestors' town house by speculative builders after the great fire of 1666. The original leases expired in eighty years, but those houses were still standing in 1887.—Indianapolis News.

His Facility in Acquiring Languages
and Crafts.

Mr. Crawford as a young man was
the envy of most of his circle of inti-
mate friends and acquaintances; tall,
straight, formed in perfect physical
proportions, he was extremely hand-
some; and in addition he had a brain
which could grasp giant tasks with
ease—tasks which for the rest of us
were either impossible or only attain-
able after months or years of effort.
He had a special facility for acquir-
ing languages and he is the only man
that I have ever known who has been
taken for a Frenchman in France, for
a native of Italy by the Italians and
for a German in Berlin.

I remember that he was on one
occasion thinking of spending a winter
in one of the countries of Central
Europe whose language was unknown
to him in order to obtain local color
and atmosphere for one of his novels,
and that in the short space of eight
weeks he had acquired by constant
study a mastery of the language, so
that he was easily able to make him-
self understood when he afterward
went there.

The same faculty which he had for
acquiring languages also extended to
other things. He mastered, I remem-
ber, the difficult art of navigation in
the course of a short winter season
in New York, in spite of the calls of
his regular literary work and his
many social engagements, so that he
was not only enabled to navigate his
own yacht—an old New York pilot
boat, partially rebuilt under his direc-
tion—across the ocean himself, but
he worked out on a voyage that I
made with him afterward the sights
day by day independently of the offi-
cers and afterward compared them
with the ship's record and the officers
came to talk over with him matters
of navigation as with one of them-
selves, so impressed were they by his
mastery of their craft.—Mr. George
P. Brett, in the Outlook.

STOCK MARKET IS NOW MANIPULATED

SHREWD COMBINATION OF TRAD-
ERS IN CONTROL.

Splendid Opportunity Offered By Con-
ditions for Such Operations on
the Boards.

REVIVING BUSINESS ACTIVITY.

New York, July 26. (Special.)—

The stock market is dominated by a
combination of most powerful and
skillful operators the street has ever
seen. These gentlemen and their
corps of able lieutenants are ener-
getically engaged in sustaining the
market and carrying first one stock,
then another, to a higher level, in or-
der to distribute their surplus hold-
ings of securities. At present prices
their profits are exceedingly hand-
some, but the public show no vorac-
ious appetite for their offerings. Ap-
parently, however, it is their purpose
to save the market from any impor-
tant decline by creating increased ac-
tivity and thus widening the specula-
tive movement and stimulating the
distribution of stocks.

It must be recognized that condi-
tions are unusually favorable for such
operations; and it need cause no sur-
prise if they met with more or less
success. Advances from the interior
are universally optimistic, and senti-
ment here is equally hopeful. From
the great agricultural regions of the
west reports as to crops are very en-
couraging, and hopes for another
profitable season to farmers are gradu-
ally approaching realization. The corn
crop, the biggest factor in our
business outlook, is still improving,
and there has been no diminution in
the prospects of a bumper yield at
very good profits. Even should prices
fall below those realized for the last
crop, as has been previously pointed
out in these advices, it looks as if
the farmers of the United States will
this year produce somewhere about
\$8,000,000,000 of new wealth. This
is a prodigious amount and must have
a very stimulating effect upon com-
mercial, industrial and financial af-
fairs. Bankers in the west are uni-
versally hopeful owing to crop con-
ditions. Merchants are not carrying
large supplies of goods, and factories
are obliged to steadily increase their
output. It is true that business does
not yet equal the volume the record
attained before the panic, and that
owing to inflation of values the actual
improvement in business is often
not as large as appears. Neverthe-
less, improvement is the order of the
day and the outlook for a satisfactory
fall and winter trade in all parts of
the country is exceptionally good, es-
pecially when the tariff issue is closed
which will now be at an early date.

Monetary Situation.

The monetary situation causes no
concern whatever. Western banks
claim they will be able to finance out-
turn requirements without making
any serious demands upon their re-
serves in New York. Nevertheless,
the westward movement of currency
must soon begin, and it will be reas-
onable to anticipate at least some
diminution of reserves and slight
hardening of rates during that period.
So far as Wall street is concerned,
it appears to have about discounted all
of these acknowledged favorable con-
ditions. Hence there is no legitimate
reason for any further general ad-
vance in securities, many of which
would doubtless be selling lower were
it not for the stubbornness with
which they are "pegged." It should
be frankly recognized that the big
leaders are apparently holding up the
market until they have succeeded in
unloading a good share of their hold-
ings. When that time arrives a re-
action may be expected to occur,
and prices will be allowed to recede
low enough to enable them to buy
back stocks sold at high prices. Al-
though natural conditions are sound,
satisfactory and hopeful, the techni-
cal situation of the market is highly
dangerous, and speculative operations
should be strictly limited. It is quite
likely that the public will be regaled
with some very bullish interviews ere
long in the interest of some of those
who have stocks to sell. Such state-
ments may prove true, but it will be
well for buyers of securities to con-
sider the purpose of their promulga-
tion.

Foreign Trade.

Our foreign trade for the fiscal
year showed some very remarkable
changes. Imports of merchandise
for the twelve months ending June
30 were \$1,312,000,000, an increase
of about \$118,000,000 during the
year. This increase was partly due
to reviving activity of business and
partly due to goods rushed in to an-
ticipate tariff advances. Our exports
of merchandise during the same
period amounted to \$1,662,000,000,
a decrease of \$197,000,000 in twelve
months. This loss was widely dis-
tributed, but was mainly due to the
shrinkage of exports of agricultural
products. In consequence of these
fluctuations our trade balance showed
an excess of exports of only \$359,-
000,000 in the last fiscal year com-
pared with \$666,000,000 for the
year before. Such violent changes in
the current of international trade,
of course, chiefly reflected the conse-
quences of the panic of 1907, even
though partly due to insufficient crops
and tariff uncertainties. The effect
of these changes upon the gold move-

MODERN HAIR DRESSING.

has played havoc with the tresses of
the fair sex, and druggists every-
where comment on the fact that they
are selling large quantities of sage
for making the old-fashioned "sage
tea," such as was used by our
grandmothers for promoting the
growth of their hair and restor-
ing its natural color. The demand
for this well-known herb for this
purpose has been so great that one
manufacturer has taken advantage
of the fact, and has placed on the
market an ideal "sage tea," contain-
ing sulphur, a valuable remedy for
dandruff and scalp rashes and irri-
tations. This preparation, which is
called Wyeth's Sage and Sulphur, is
sold by all leading druggists for 50
cents and \$1.00 a bottle, or will be
sent direct by the Wyeth Chemical
Company, 74 Cortlandt St., New
York City, upon receipt of price.

ment was very marked, there being
an excess of \$47,000,000 in exports
this year compared with an excess of
\$76,000,000 in imports in the fiscal
year ending 1908. For the time be-
ing gold shipments to Europe have
ceased, but large sums are still going
to Argentina on London account. Un-
less all indications fall our foreign
trade should soon return to more sat-
isfactory conditions. Imports should
become more normal as soon as tariff
uncertainties are out of the way, and
our exports should recover somewhat
under the effect of larger crops. The
tendency, however, appears to be to-
wards diminished exports of grain
and meats for the reason that our
home demands appear to be increas-
ing more rapidly than the supplies.
Exports of manufactures are fortun-
ately increasing. It would cause no
surprise, however, if we should ship
considerable gold during the last six
months of the calendar year, much
depending upon the freedom with
which Europe may take our securities
of which if all prognostications prove
true there will be a plentiful supply
before very long.

Clemency in Duration.

A well known burglar was recent-
ly tried in a county in Missouri.
Among his counsel was a young at-
torney, for whom, despite his youth
and inexperience, the accused had
acquired a great liking, and when he
had insisted upon retaining to assist
in the defense.

"About how long do you think I
ought to make my speech to the
jury?" asked the youthful expounder
of the law to associate counsel.

"I should say about two hours,"
suggested the other.

"Two hours? Why," exclaimed the
young attorney, "I thought that half
an hour would be quite sufficient!"

"It's this way," explained the oth-
er lawyer. "They can't sentence him

A Promise to Pay

Would you accept a stranger's
note? No. Then why accept
from a stranger any other
promise to pay? A Fire insur-
ance policy is such a promise.
Ought you to accept it with-
out knowing all about the
Company? Your usual busi-
ness confidence is based on
knowledge. Why make an ex-
ception in that part of your
business which deals with insur-
ance? A name is worth
nothing on any kind of a
promise to pay unless it is
backed by character and re-
sources.

We favor insurance knowl-
edge, particularly about our
companies. Their promises to
pay have never gone to pro-
test. Their obligations to its
policy holders are backed with
such a good reputation and
such ample financial resources
that the more you know about
them the more you will want
protection by their policies.

HAILS FREE HIDES AND CHEAP SHOES

MANUFACTURER SAYS REMOVAL
MEANS BETTER FOOTWEAR.

J. Harry Selz Tells Buyers to Thank
President Taft and the Friendly
Congressmen.

THE PRICE ALSO WILL DROP

Chicago, July 26.—Free hides
mean cheaper shoes for the public,
probably within a year.

That was the opinion expressed
last night by one of Chicago's shoe
manufacturers, J. Harry Selz, of Selz,
Schwab & Co., when informed that
President Taft probably had won in
his fight for to have hides placed on
the free list in the new tariff bill.
Mr. Selz outlined what free hides will
mean to the whole country, manu-
facturer, tanner, producer and con-
sumer.

"The removal of the tariff on hides
means that ultimately the consumer
will get much better and cheaper
shoes," he declared. "There will not
be a decline in price immediately for
reasons which I shall explain, but
ultimately—absolutely, I say, and
time will bear out my statement—the
consumer will get better and
cheaper shoes and that within a year.
The grades will be better and, there-
fore, shoes will be cheaper, and the
same grades will be cheaper. Now,
let me explain it all.

"The effect of the reduction of the
tariff, as the shoe manufacturers
view it, will be to throw open the
markets of the world to us. Hitherto
there has been a duty of 15 per cent
on heavy hides, weighing 25 pounds
or over. These hides are a scarcity
in this country, and in fact all over
the world just at present, and they
are the hides we need most in the
manufacture of shoes.

Scarcity of Cattle, Also Hides.

"There is a scarcity of cattle in
this country, as pointed out a day or
two ago, and so there is a scarcity
of heavy hides, and of all hides. We
are paying now 17½ cents a pound
for the heavy hides, the highest price
in the history of the leather industry.
Hides are not like wool, these
never has been an animal found that
produced more than one hide, you
know. So the market is short the
world over, and therefore we say the
price of shoes will not decline imme-
diately, but ultimately. On the other
hand, with the duty on, we couldn't
afford to import heavy hides. Shall
I tell you what surely would happen
if the duty is not removed?

"The price of shoes to the con-
sumer would be raised 25 per cent
within the next 60 days, and I'll tell
you why. We are paying 17½ cents
for hides, but as the present selling
prices for shoes are based on a price
of 13½ cents for hides, we simply
cannot afford to sell shoes which now
are being manufactured from top
price hides for the old prices.

Sees Other Improvements.

"The removal of the tariff will re-
sult in a great deal of good in other
ways. The consumer of shoes has
not been getting as good shoes in
recent years as he did before the
Dingley tariff went into effect in
1897. Hides have been high and the
tanners have put their leather in the
shortest possible time to get it off
their hands and get their money out
of it. The result has been that they
have given us poorer leather and the
consumer has got poorer shoes. With
the markets of the world opened to
us this will be changed—and another
thing will change.

"The large packers, who control
the beef market, have exercised a
monopoly in the hide market. They
have had the animals and therefore
the hides, and we have had to pay
the prices they asked because hides
are scarce and we have to take their
hides or close up shop. That will be
changed and we all can thank Presi-
dent Taft and the congressmen who
have stood firmly by us in the twelve
years' fight."

An Embarrassing Introduction.

William S. Bennett, a representa-
tive from New York City, went to ad-
dress a political meeting in his dis-
trict one night, when he was much
younger than he is now.

"The chairman," said Bennett,
"was a very liberal person. He looked
at the gallery, where one woman was
sitting, and said: 'Lady and gentle-
men, this is a most momentous cam-
paign. There are grave issues to be
discussed. Later we will hear from
our best speakers, but, for the pres-
ent, we will listen to Mr. Bennett.'

DR. MENN STARTS INVESTIGATION

CLAIMED THAT BARON ROTHSCHILD DEFAMED DAUGHTER.

Objected to Wedding of His Son to Miss Menn—Had Detectives Investigating Career of Lady.

HE MUST MAKE EXPLANATION.

Chicago, July 26.—Dr. Adolph Menn, father of Miss Olga Menn, the young Chicago girl who was engaged to Baron Oscar Rothschild when the latter committed suicide, has started an investigation, which it is said will develop some sensational incidents.

It was learned here that a lawyer had left for New York to have a conference with Dr. Menn's representatives, who are to sail for London on the Lusitania next Wednesday. Dr. Julius Kessler, a prominent New York physician, is the one commissioned to interview Baron Albert Rothschild, father of Baron Oscar, who committed suicide on July 12. Dr. Kessler will be accompanied by a lawyer of international repute.

Dr. Menn, according to his friends, is convinced that Baron Oscar did not commit suicide because of his parents' refusal to permit him to marry his daughter, but on account of defamatory reports that had been circulated by the Rothschilds in an effort to poison his mind against Miss Menn.

Said She Was on the Stage.

Dr. Menn, it is said, has learned that Mr. Rothschild had engaged detectives to look up Miss Menn's history, and that they had returned reports saying that she had been on the stage and was not in the same station in life as the baron. It has been intimated in some sources that Baron Rothschild and Miss Menn were secretly married during the baron's visit here last winter. This report, however, could not be confirmed, but some color is given the rumor by Dr. Menn's persistence in having his representatives make a personal call on the Rothschild household.

MANY MEN GOING TO WORK AT THE PADUCAH L. C. SHOPS

Many of the men were put to work today at the Illinois Central railroad shops. The increase was granted last week, but some difficulty has been secured in securing machinists. Telegrams have been sent to the machinists' organizations, and already many mechanics have arrived in the city. In the locomotive department an increase of 129 men was made, 50 being machinists.

Six Lives Lost in Wreck.

Kansas City, July 26.—Six lives were lost and three persons were perhaps fatally injured in the wreck of the Wabash train which plunged into the Missouri river 30 miles west of here last night. The dead: Charles Flowers, engineer; Louis Bond, fireman; Harry Eckert, baggage man; Daniel King, two year old son of E. T. King; Jesse Oldham, laborer; Charles Anthony, laborer. Seriously injured: Frank Gardner, of Mt. Vernon, O.; Mrs. S. S. Hackett and Miss Irene Dorton, of Orrick, Mo.

Auto Strikes Bridge Guard Rail.

Bloomington, Ill., July 26.—Bert Holcomb was killed, W. T. Shortness had a rib broken and John Cuss was badly bruised when an automobile wherein they were riding struck the guard rail of a bridge and overturned.

"Well, Johnny, do you wish you were a grown-up man?"

"You bet I do!"

"But why?"

"So people wouldn't ask me such fool questions"—Cleveland Leader.

The stage of the river this morning at 7 o'clock was 20.1, a fall of 1.3 feet in the last twelve hours. The river is receding rapidly and will continue falling until a low stage is reached.

ARRIVALS—Dick Fowler from Cairo at 8 o'clock tonight; Joe Fowler from Evansville at 11 o'clock Sunday night; J. B. Richardson from Nashville at 11 o'clock Sunday night; George Cowling from Metropolis this morning at 9 o'clock and this afternoon at 3 o'clock; Perry Bettie Owen from Brookport and Illinois landings this morning and afternoon on time; Royal from Golconda at 10 o'clock this morning with a good freight list and many passengers; Clyde from Tennessee river today with a big trip of freight and passengers.

DEPARTURES—Dick Fowler at 8 o'clock this morning for Cairo with a good freight and passenger list; Joe Fowler for Evansville at 11 o'clock this morning; Bettie Owen for Brookport and regular Illinois landings; Clyde for the lower Ohio to unload and receive freight; Royal for Golconda at 2 o'clock this afternoon with a good trip; George Cowling for Metropolis at 11 a. m. and at 4:30 p. m.; J. B. Richardson for Clarksville and all way landings at noon today with a good trip.

The ferryboat Bettie Owen carried a crowd of excursionists up the Tennessee river Sunday afternoon, departing at 2 o'clock and returning at 6. Several hundred made the trip.

The Joe Fowler did not get in port until late Sunday night from Evansville on account of handling 1,800 sacks of wheat from the upper Ohio to Elizabethtown.

The John S. Hopkins will be the Evansville packet tomorrow morning arriving at 9 a. m. and leaving at 11 o'clock.

The Dick Fowler carried a colored excursion to Golconda Sunday leaving here at 9 o'clock in the morning and returning at 7 o'clock last night.

The City of Saffilo leaves St. Louis this afternoon for the Tennessee river and all way landings, arriving here early tomorrow night.

The City of Birmingham will be in from the Tennessee river tomorrow afternoon.

The Cutaway III brought out two

log rafts from the Tennessee river today taking them to Metropolis. She will bring out several rafts from the Cumberland river tomorrow and Wednesday from Metropolis.

The towboat Charles Turner, pushing the old dry docks at the foot of Jefferson street, will depart tomorrow morning for the Mississippi river. The docks were recently purchased by H. C. Murran, of Helena, Ark., and will be taken there. Captain Murran anticipates a big business, as these will be the only docks there.

A change in the crew of the Dick Fowler was made this morning when Capt. N. F. (Buck) Roberts shipped as captain and head clerk. He takes the place of Capt. Mark Cole, who will leave for Port Stanton, N. M., for his health. He will return in a few months. Frank Kennedy went on this morning as mate in place of Joe Cunningham. The place of Captain Toler, the boat carpenter, is being filled by Al DeWhitt. The Fowler will not handle wheat on her return tonight.

Several excursions out of this port are booked for this week. The Dick Fowler will carry the Modern Woodmen of this city on a moonlight excursion tomorrow night. Thursday night she will carry an excursion of the Methodist church. The Reuben Dunbar will probably take the Owl club of Paducah for an excursion tomorrow night.

The Joe Fowler is having a great deal of worry over her "rousters." The captain claims they will work until it becomes hard and they drop off. In fact all steamboats are having their "rouster" troubles this season of the year.

A plenty party of about 20 people made the trip to Metropolis lake Sunday in the gasoline launch Cutaway. The party went down in the morning returning late in the afternoon.

The towboat Lyda is due from the Tennessee river with a tow of five.

The Harvester will arrive at Memphis tonight with a tow of coal from the West Kentucky Coal company here. She will leave the tow there and take a large tow at that port, leaving tomorrow for New Orleans.

Evansville, Ind., July 26.—The steamer Berninda King, owned by Peter Johnson, of this city, and J. E. Woods, of Grandview, Ind., was destroyed by fire at 8 o'clock yesterday morning.

No Place for Him.

"What's de use?" said the tired looking individual, "you can't suit de world, anyway."

"What now?" asked the man who was shelling peanuts.

"Well, if a feller sticks to de end seat in a theater or a street car, dey calls him de 'end seat hog,' an' if he takes de middle dey call him de 'between de act nuisance' an' ask him 'wa't he's walkin' all over ev'rybody's feet.'"

FLESH

THAT IS THE PRINCIPAL QUESTION AMONG THE ELKS.

Those Who Have It Would Lose It—Others Seek to Gain More of It.

Great work is under way in Paducah early every morning for the heavy Elks are running in an effort to reduce flesh while the slender Elks are loading and eating six times a day trying to pick up weight to cope with their heavier brothers. All is in preparation for the baseball game next Friday afternoon between the Fat Elks and the Lean Elks. The entire proceeds will go for the benefit of the Home of the Friendless and for this reason a large crowd will be out to see the fun. Tickets are being sold lively and a neat sum will be realized for the orphan children.

The teams will line up: Lean Elks—S. Smith, c; Richard Davis, p; Dr. Powell, 1b; Louis List, 2b; Sidney Bamberg, 3b; Monte Atkins, ss; J. R. White, lf; Taylor Fisher, cf; Rass Rasmussen, rf. Fat Elks—Lou Allenberg, c; Ed Rivers, p; R. E. Mosshell, 1b; Herbert Hecht, 2b; S. T. Atkins, 3b; Dr. J. D. Robertson, ss; Chief James Wood, lf; Fred Roth, cf; J. P. Bowler, rf. Should any of the fat Elks be played off their feet the following will be substitutes: Mike Griffin, L. B. Ragan, Sam Hecht, J. H. Steffen, Melvin Wallerstein, John Douthy, Jack Conway.

The umpires will be: Gordon Head, Roy L. Culley and Roy Gresham, while others will be picked from the crowd.

COURT-MARTIAL

MAY FOLLOW THE SUTTON INVESTIGATION.

Court of Inquiry is Going Into Details of Orgy in Which Sutton Died.

Annapolis, July 26.—This week promises sensations in the death inquiry of Lieut. Sutton. Mrs. Sutton and Mrs. Parker will take the stand today. The undertaker is to testify.

Naval Men Stand Together.

Annapolis, Md., July 26.—After a full week of the second inquiry into the mysterious death of James Sutton, a young lieutenant of the marine corps, one fact stands out. The navy and the marine corps is as close a corporation as ever was evolved in Wall street.

That some of the witnesses have perjured themselves—perhaps "like gentlemen"—is declared openly by Mrs. Sutton, mother of the dead lieutenant, and by his sister, Mrs. Rose Sutton Parker, who is certain of powerful army support, through the fact that her husband is a popular officer in that branch of the government service of arms. Their attorneys, Henry E. Davis and Vanoyck Bros., men of prominence at the Washington bar, concur in this belief.

Even the excitement of a night of fist fights, ending in a deadly battle, do not explain the marvelous discrepancies in the tales told upon the witness stand of the remarkable struggle or series of struggles that ended in Sutton's death.

Court-Martials Likely.

No one can question the sincerity of the naval board, who under Commander Hood, is conducting this second probe into Sutton's death. Judge Advocate Leonard, the one-armed major of marines, who is one of the few officers held in the service after suffering such a grievous injury at the front in Pekin, seems to overlook no detail. He is not conducting the case as does the usual prosecuting attorney. He seems to have as much interest in getting to the bottom of points against the marine corps as he does in those which go to show Sutton a suicide.

From Washington comes the hint that several court-martial will follow the report of the board of inquiry. From the testimony of the marine officers a deplorable lack of discipline existed. The Annapolis station was then under command of Col. Doyen. Since Sutton's death the school has been moved to South Carolina, although Col. Doyen still remains in command of the marine barracks in connection with the naval academy.

Mrs. Rose Sutton Parker told for the first time of the existence of two other revolvers not mentioned among her brother's effects.

The girl who knows how to make good biscuits and cream gravy seldom knows how to carry on a flirtation.

HYGIENIC DIET

People who prefer a vegetable diet to one of meat and who look for maximum nourishment with variety find a most unusual food in Faust Brand Spaghetti.

So admirably does it lend itself to the making of endless tempting and nourishing dishes—whether for dinner or supper—that it has taken the place of meat even in many non-vegetarian homes.

Faust Spaghetti is a food to work on. Makes blood, bone, muscle and energy—and, unlike meat, does it without taxing the digestion or overeating the blood.

Then consider the economy of it! At only five and ten cents a package it has no equal as a nourishing, sustaining food within reach of all.

And as to its adaptability—the book of recipes sent free on request merely suggests the endless number of ways of serving it—as a simple side dish, a sweet pudding, or as the best part of a substantial meal; and, what is best of all, in such appetizing and tasty forms that it is always welcome.

COTTON NEEDS

CENTRAL AND NORTHERN TEXAS HAD LOCAL RAINS.

Plant Small, But Now Well Cultivated—Cotton Picking in Southern Texas and Georgia.

Memphis, Tenn., July 26.—Rain-fall in the cotton belt throughout the month of July has been light. This has been favorable to the extent that it has permitted thorough cultivation, but now that such cultivation has been accomplished, the need for rain is becoming general. Outside of Texas there has as yet been no acute suffering, but it is very desirable that general rains should fall within the coming week.

The plant has not made rapid growth and is still small everywhere except in Oklahoma, but it is stocky and would readily respond to the stimulation of abundant moisture. Cultivation is being rapidly completed.

In Texas reports covering the week to Saturday night at 6 o'clock show that abundant rains in southern and western parts of the state and that the crop, although it had suffered severely, was much benefited. In central and northern counties some rains fell, with great benefit to the cotton, but many districts in these sections had very light showers or no rain at all, and are still dry. It is characteristic of Central Texas, as elsewhere in the belt, that rains were spotted and local, although in instances heavy.

New cotton has begun to move in Southern Texas, and picking will begin this week as far north as Nevada. Southern Georgia also expects to begin picking this week.

The most marked gains during the week were made in Alabama, Georgia and the Carolinas, where the crop in many instances now makes better promise than was at one time thought possible.

CONSOLIDATED SCHOOL ATTENDANCE INCREASES

An increase in attendance in the consolidated school at Lone Oak was had today, and County Superintendent S. J. Billington is much encouraged over the school. The suit for a mandatory injunction will not have any effect on the school until after the trial of the suit, which will be August 3. County Attorney Alben W. Barkley will be the attorney for the school board.

AT THE CHURCHES

The Rev. Cy Leigh filled the pulpit of the Second Baptist church yesterday and preached two excellent sermons.

In the absence of the Rev. T. J. Owen, the Rev. Thomas Woodbridge filled the pulpit at the Third Street Methodist church yesterday and large crowds were there to hear him both morning and evening.

Regular Sunday services at the St. Francis de Sales Catholic church yesterday. At the early mass a Society of the Holy Name was organized for the men of the congregation.

The Rev. E. C. McAllister preached at the Grace Episcopal church yesterday and at the Good Shepherd House in the evening.

Well attended services were held at the Cumberland Presbyterian church yesterday, and the Rev. D. W. Fooks preached two strong sermons.

No morning services were held at the German Lutheran church yesterday, in the evening the Rev. William Grother's sermon on "The Folly of Not Following Christ for Fear of Earthly Losses," was heard by a large congregation.

Two excellent sermons were preached to large congregations at the Kentucky Avenue Presbyterian church yesterday by Mr. Ted P. Hollifield, of Mayfield, one of the five candidates for the ministry in the Princeton Presbytery. In the morning his subject was "Willing People," a plea for earnest, willing service in the church. His evening subject dealt with reasons why men reject Christ. Mr. Hollifield is an earnest, intelligent, scholarly young man of pronounced ability in the pulpit.

Dr. E. C. Hickok, of Farmington, Mo., preached at both services at the First Presbyterian church yesterday. In the evening he preached on "Why I Am a Christian," logically expounding his theology and the doctrine of the trinity. In the morning he preached on the astonishment of the scribes at the erudition displayed by Christ, the unlettered son of a carpenter. He said his subject was suggested by the statement imputed to a Chicago professor, that if Christ were living today he could not pass the examination requirements to enter the lower grades of a great educational institution. By the scriptures and history and analysis Dr. Hickok proved the superficiality of his eminent professor's observation.

There were two additions to the First Baptist church Sunday night. The Rev. M. E. Dodd, the pastor, administered the ordinance of baptism to one person at the evening service. The Sunday school of the Fountain Avenue Methodist church is organizing an orchestra, which will play every Sunday. The orchestra, although

not fully organized, will consist of about eight pieces and expects to give an entertainment at the church before long.

The services at the Mechanicsburg Methodist church were well attended. The Rev. E. B. Lewis' sermon on "Carrying the Gospel to Every Creature" in the morning and "Every Man in His Place" in the evening were well received. The principal points in the morning sermon were a comparison of the philosophy of the old and the new religion. He said that the new religion is founded on life and not philosophy. In the evening the points were that every man should know his place and retain his place at any cost.

WAS CUT TEN TIMES.

Dr. Charles Murphy Seriously if Not Fatally Wounded.

Clarksville, Ark., July 26.—Today at Hagarville, ten miles from town, Ben Turner engaged in a fight with Dr. Charles Murphy. During the fight Turner stabbed Murphy ten times with a long bladed knife. Murphy is not expected to live. Turner was lodged in jail by the officers to await the result of Murphy's injuries. Murphy is a well known physician of the eastern part of the county. Turner has a previous court record and is considered a bad man.

Word was also brought to town that a cutting occurred at Harmony, in which a man named Edwards severely cut a man named Jagers. Officers have gone to Harmony neighborhood, which is about ten miles from here.

MURDERED HIS WIFE AND THEN KILLED HIMSELF

New Bedford, Mass., July 26.—Waylating his beautiful wife on a lonely country road and mangle her with a tomahawk, Robert E. Fanning, of Westport, fled home, wrote a startling letter to the chief of police at New Bedford, drove here and delivered his letter and in the presence of the police officers shot his self. In the letter he blessed his wife and baby and blamed drink. He had an income to \$15,000.

EMANCIPATION WILL BE CELEBRATED AUGUST 10.

Although the local colored people protested against any more Emancipation day excursions, because they bring a class of undesirable class into the city, and the police authorities determined to discourage excursions, Emancipation day will be observed August 10, and excursions will be run in here from Evansville, Memphis, Nashville, Louisville, St. Louis, Dyersburg, Hopkinsville and Jackson. But Chief Collins says he will see that bad characters are not given a hospitable reception here. Steamboats will also bring delegations. Chief Collins would much rather have the excursions August 8, which is Sunday, if they must come.

An idle rumor is about as busy as a pesky house fly.

COAL! COAL! COAL!

experience of ten years, handling coal from every mine accessible to Paducah, TAYLOR COAL has given the best satisfaction, and, as the consumer is the best judge and the one to please, we have decided to handle no other. Never clinkers; no slate, no slack; burns to a fine white ash and will beat any coal in the world for holding fire all night. We have found it the best, those that tried it found it the best, if you try it you will find it the best, and have no other. Be sure and get our prices before buying.

Now is the time to place your coal order for the winter. And every coal dealer will tell you his is the best. Unlike other dealers, we are not under salary or contract to sell coal from any one coal mine and to tell you it is the best; but an ex-
